

## RESISTANCE ACTIONS THIS WEEK

**Resist fascism now- before it's too late.**

1. **Monday, September 1, 2025, 12-3 pm: Workers Over Billionaires Labor Day rally in Hartford, Connecticut, State Capitol:**

### About this event

The billionaires continue to wage a cruel war on working people, with their cronies in the administration, ICE and law enforcement backing up their attacks. This Labor Day we will continue to stand strong, fighting for public schools over private profits, healthcare over hedge funds, shared prosperity over corporate politics. **Demand a world that works for all of us.** For more information or to sign up: <https://www.mobilize.us/mayday/event/824523/>

2. **Saturday, September 6, 2025, 11-4 pm, Washington DC: “We Are All DC- A National March” (March begins at Noon)**

**If you can possibly go, this is a chance to take a stand against the promised Trump takeover of all our cities: now it's DC, but “this is just the beginning.”**

Armed National Guard soldiers are carrying guns through our neighborhoods. ICE and FBI agents are profiling, harassing, and violently arresting our neighbors. MPD is going after children just for being

outside, and every hour that goes by is an hour when people here are in danger.

**On Saturday, September 6, we are calling on everyone in the DC region and allies from across the country to join us for "We Are All DC," a national march in solidarity with DC communities to end the occupation of DC.
