

## ABOLISH ICE (America's New Gestapo)

Immigration and Customs Enforcement (ICE) agents have used Gestapo-like intimidation tactics against U.S. citizens and immigrants since the agency's founding in 2002. **In the last four months of 2025 and the first ten days of 2026 alone, under a 120% recruitment and hiring surge directed by the Trump regime, there have been nine ICE shootings with two fatalities, the latest being Renee Nicole Good, in Minneapolis, on January 6<sup>th</sup>.** These numbers do not include those who have died while being held in torture prisons (32 people died in detention in 2025); those who were shot and wounded (protesters, bystanders, and those kidnapped and detained without due process); or those who were illegally deported to face torture, further detention, and possibly death.

**JOIN THE MASS MOBILIZATION, JANUARY 11, 2026, at 3 pm (TODAY) on the NEW HAVEN GREEN: ICE OUT FOR GOOD! ICE is untrained, armed, and dangerous to every American. Get ICE out of our cities now. (Organized by Unidad Latina en Accion.)**

### END U.S. Wars and Occupations

Trump wants a 50% increase in the military budget in 2027: \$1.5 trillion to build his "Dream Military." At the same time, his regime is gutting social safety net benefits and trying to end the subsidies that help millions afford their (already inadequate) health care plans.

Led by Secretary of Defense Pete Hegseth, Homeland Security Advisor Stephen Miller, and Secretary of State Marco Rubio, the U.S. is threatening military action to take over Greenland (a territory of Denmark); to occupy and run Venezuela; and to depose the leaders of Cuba and Colombia. **Less than a year into Trump's second term, they have already bombed Syria, Iraq, Iran, Nigeria, Yemen, Somalia, and, of course, Venezuela.** Prior to the recent illegal kidnapping of Venezuela's president on January 3<sup>rd</sup>, 2026, the U.S. military attacked a Venezuelan port and killed more than 100 civilians on the high seas in the Caribbean and Pacific Ocean. And our government continues to arm Israel, which has killed nearly 400 Gazan civilians since the October 7<sup>th</sup> ceasefire.

Trump openly brags about the motives for these endless U.S. wars that he entered office vowing he would end. Gone is the longstanding pretense of "making the world safe for democracy." These wars are now admittedly about control of oil and other resources and further enriching the billionaire class and consolidating their power, nationally and internationally: all in the name of "making America great" (while destroying the lives of most of its citizens.)

### REMOVE the Trump Regime

Ultra-nationalism; endless military incursions and interventions; repeated denials and violations of the human rights of targeted groups; media censorship; control over education; the rewriting of history; the labeling and targeting of gender non-conforming people and people of color as enemies; normalizing corruption and political violence; ignoring due process; protecting corporate power; using the military on civilians; denying reality by repeating lies; appointing incompetent loyalists to high office; erasing and faking government data: **these things and more fit the playbook of a fascist takeover. This is what we are witnessing and experiencing at the hands of our current government.** We must act now- nonviolently and with consistent purpose- to stop this takeover and remove this regime while we still can.

***Resist fascism now (before it's too late.) Resist this endless war.***
